

Fidelity Adversarial Test

Header repeated in all pages

Typography matrix:

regular text **bold text** *italic text* colored text

H₂O and x̂²

Display-like formulas:

$$\bar{x} = (\sum_i^n (x_i - \mu)^2) / n$$
$$\int_0^1 x^2 \, dx = 1/3$$

Q1	Q2	Q3
10	20	30

- 1) Ordered list item
- 2) Second ordered item
- Bullet item

Two-column layout test

L1 left column text block with mixed spacing and symbols α_0 R1 right column text block with x^2 and β_0 .
L2 left column text block with mixed spacing and symbols α_1 R2 right column text block with x^2 and β_1 .
L3 left column text block with mixed spacing and symbols α_2 R3 right column text block with x^2 and β_2 .
L4 left column text block with mixed spacing and symbols α_3 R4 right column text block with x^2 and β_3 .
L5 left column text block with mixed spacing and symbols α_4 R5 right column text block with x^2 and β_4 .
L6 left column text block with mixed spacing and symbols α_5 R6 right column text block with x^2 and β_5 .
L7 left column text block with mixed spacing and symbols α_6 R7 right column text block with x^2 and β_6 .
L8 left column text block with mixed spacing and symbols α_7 R8 right column text block with x^2 and β_7 .
L9 left column text block with mixed spacing and symbols α_8 R9 right column text block with x^2 and β_8 .
L10 left column text block with mixed spacing and symbols α_9 R10 right column text block with x^2 and β_9 .
L11 left column text block with mixed spacing and symbols α_{10} R11 right column text block with x^2 and β_{10} .
L12 left column text block with mixed spacing and symbols α_{11} R12 right column text block with x^2 and β_{11} .
